

Driving Industries Forward

Welcome to Shreeji Gears
Your trusted partner for
high-precision gears, gearboxes,
sprockets, couplings, and
industrial solutions.

About Us

Shreeji Gears is Ahmedabad's trusted name for precision-engineered gears and gearboxes. With 24+ years of expertise, we deliver quality, innovation, and reliability for every industrial need.

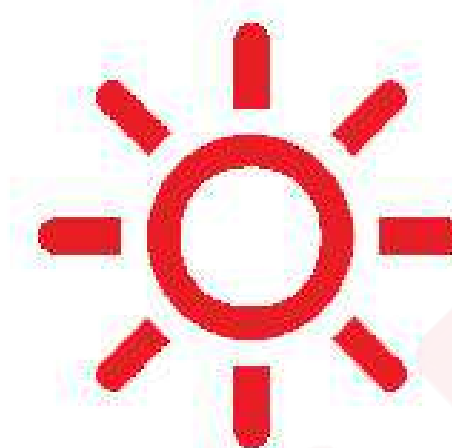

Our Mission

To deliver precision-engineered gears with uncompromising quality, reliability, innovation, and exceptional customer satisfaction.

Our Vision

To be recognized globally as the most trusted and innovative provider of precision gear solutions, advancing industries through excellence.

Why Choose Us?

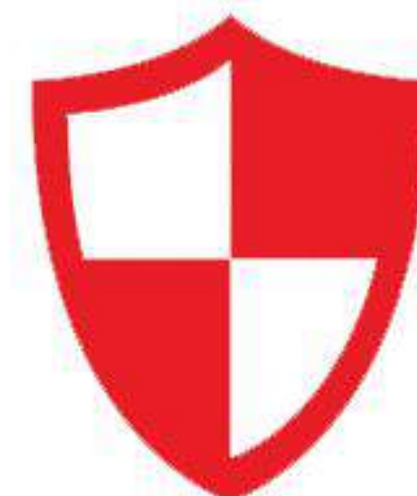

Expertise

Decades of proven experience

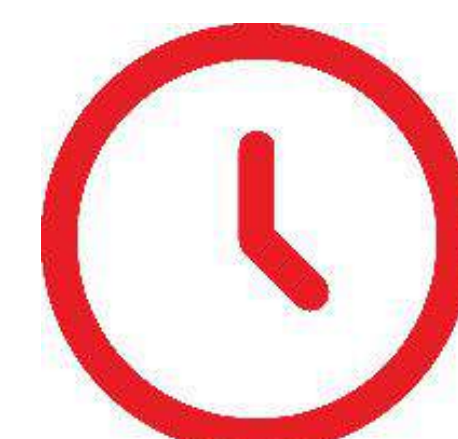

Advanced Infrastructure

Modern machines, precise results

Customized Solutions

Tailored to your needs

Quality

No compromise in standards

On-Time Delivery

Always fast and reliable

Trusted by Industries

Preferred by leading brands

Gears

Helical Gear

Spur Gear

Bevel Gear

Worm Gear

Miter Gear

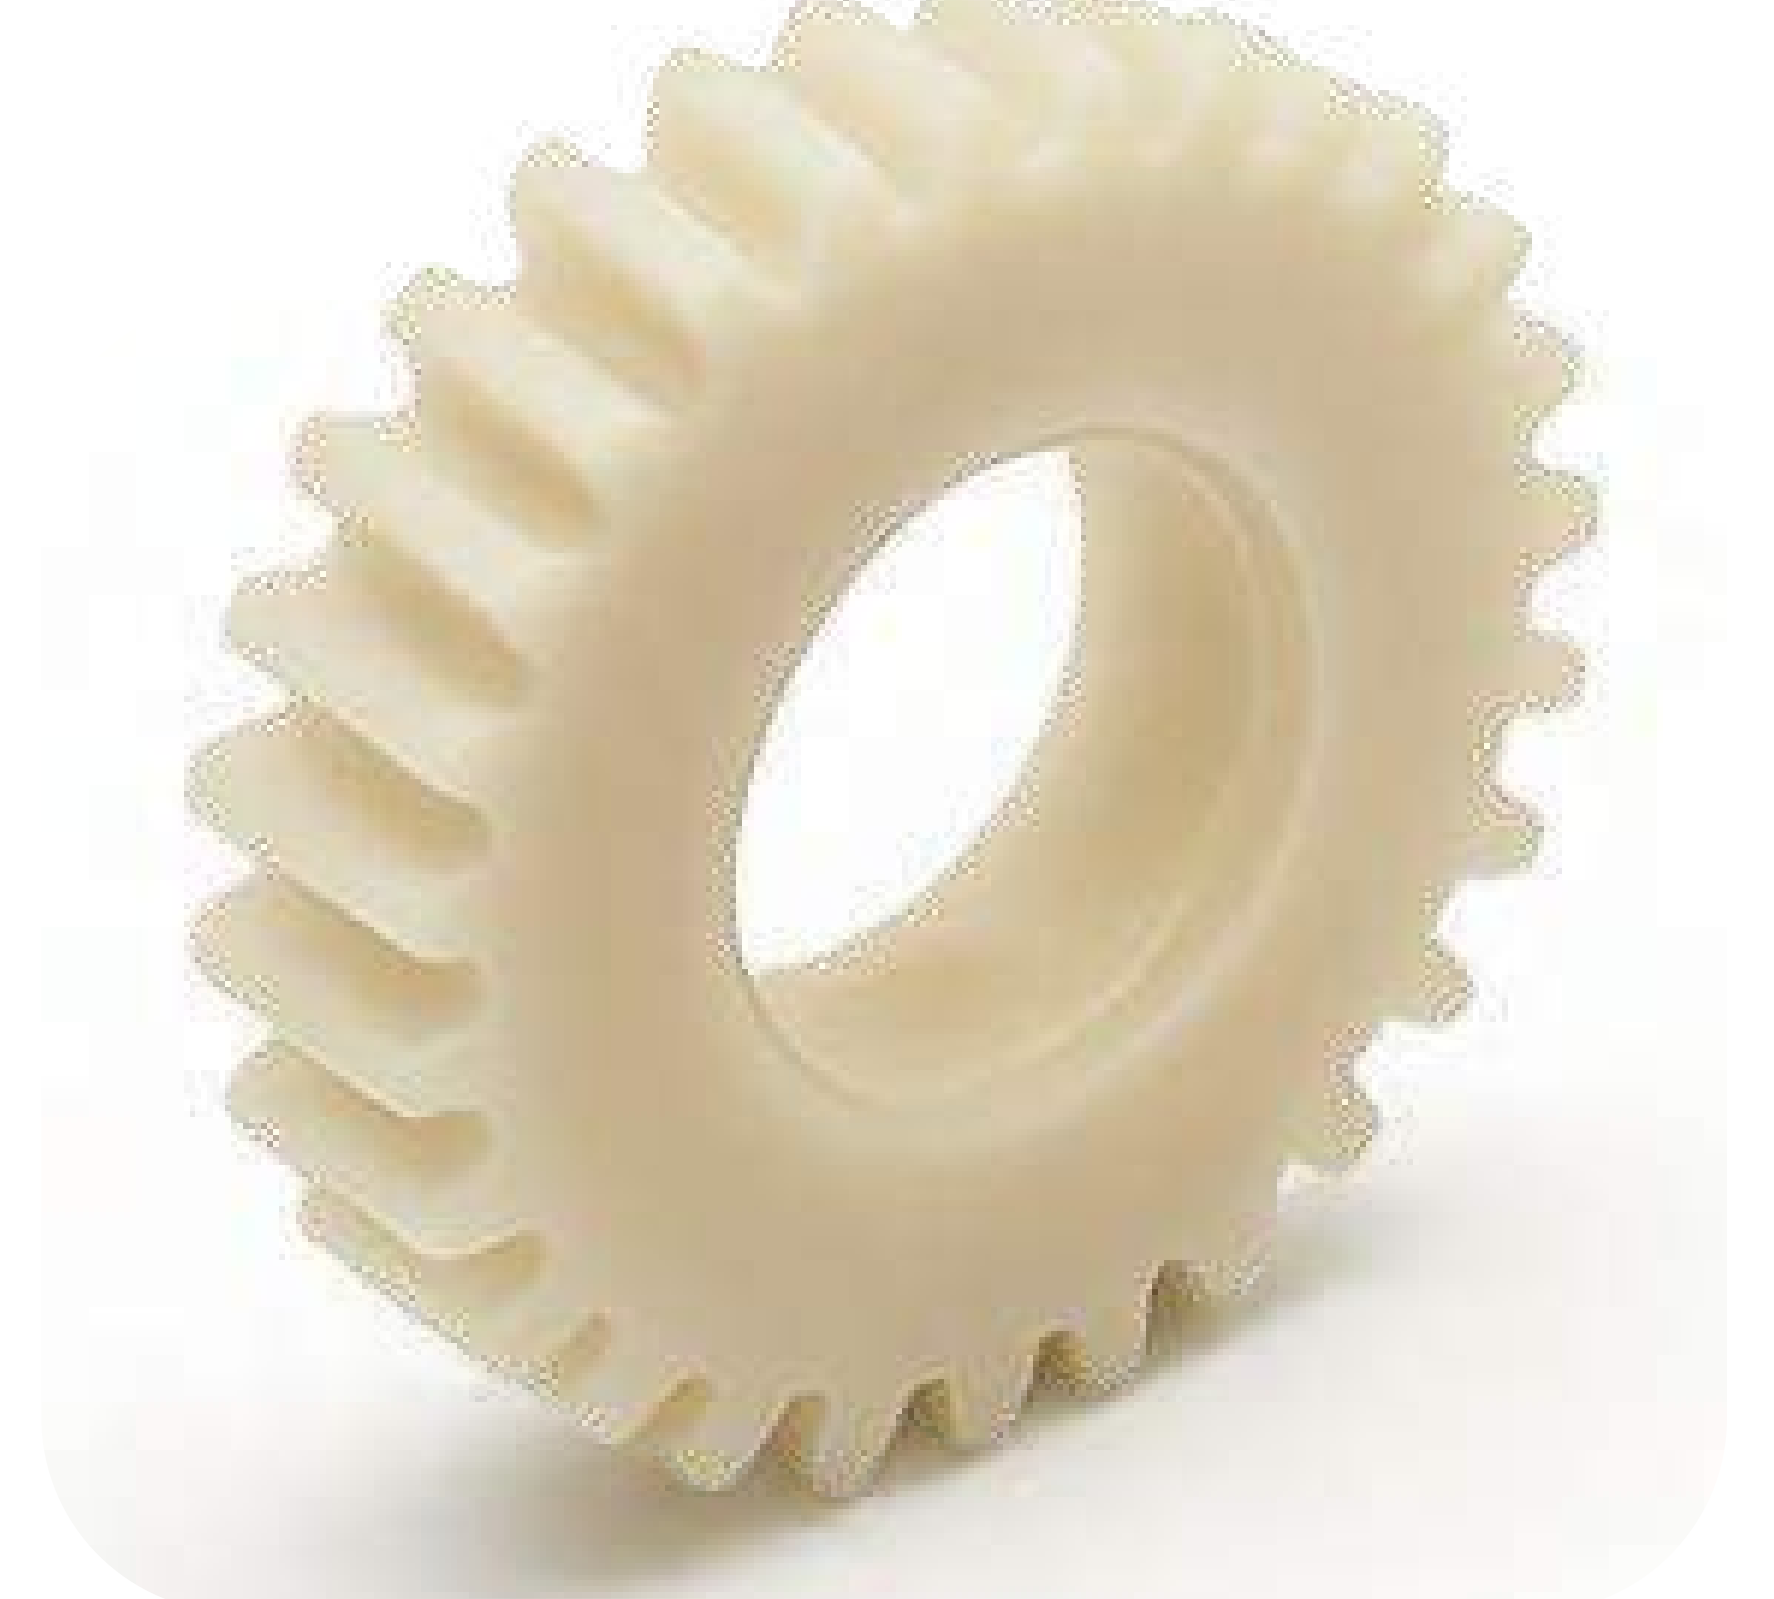

Rack and Pinion

Double Helical Gear

Internal Gear

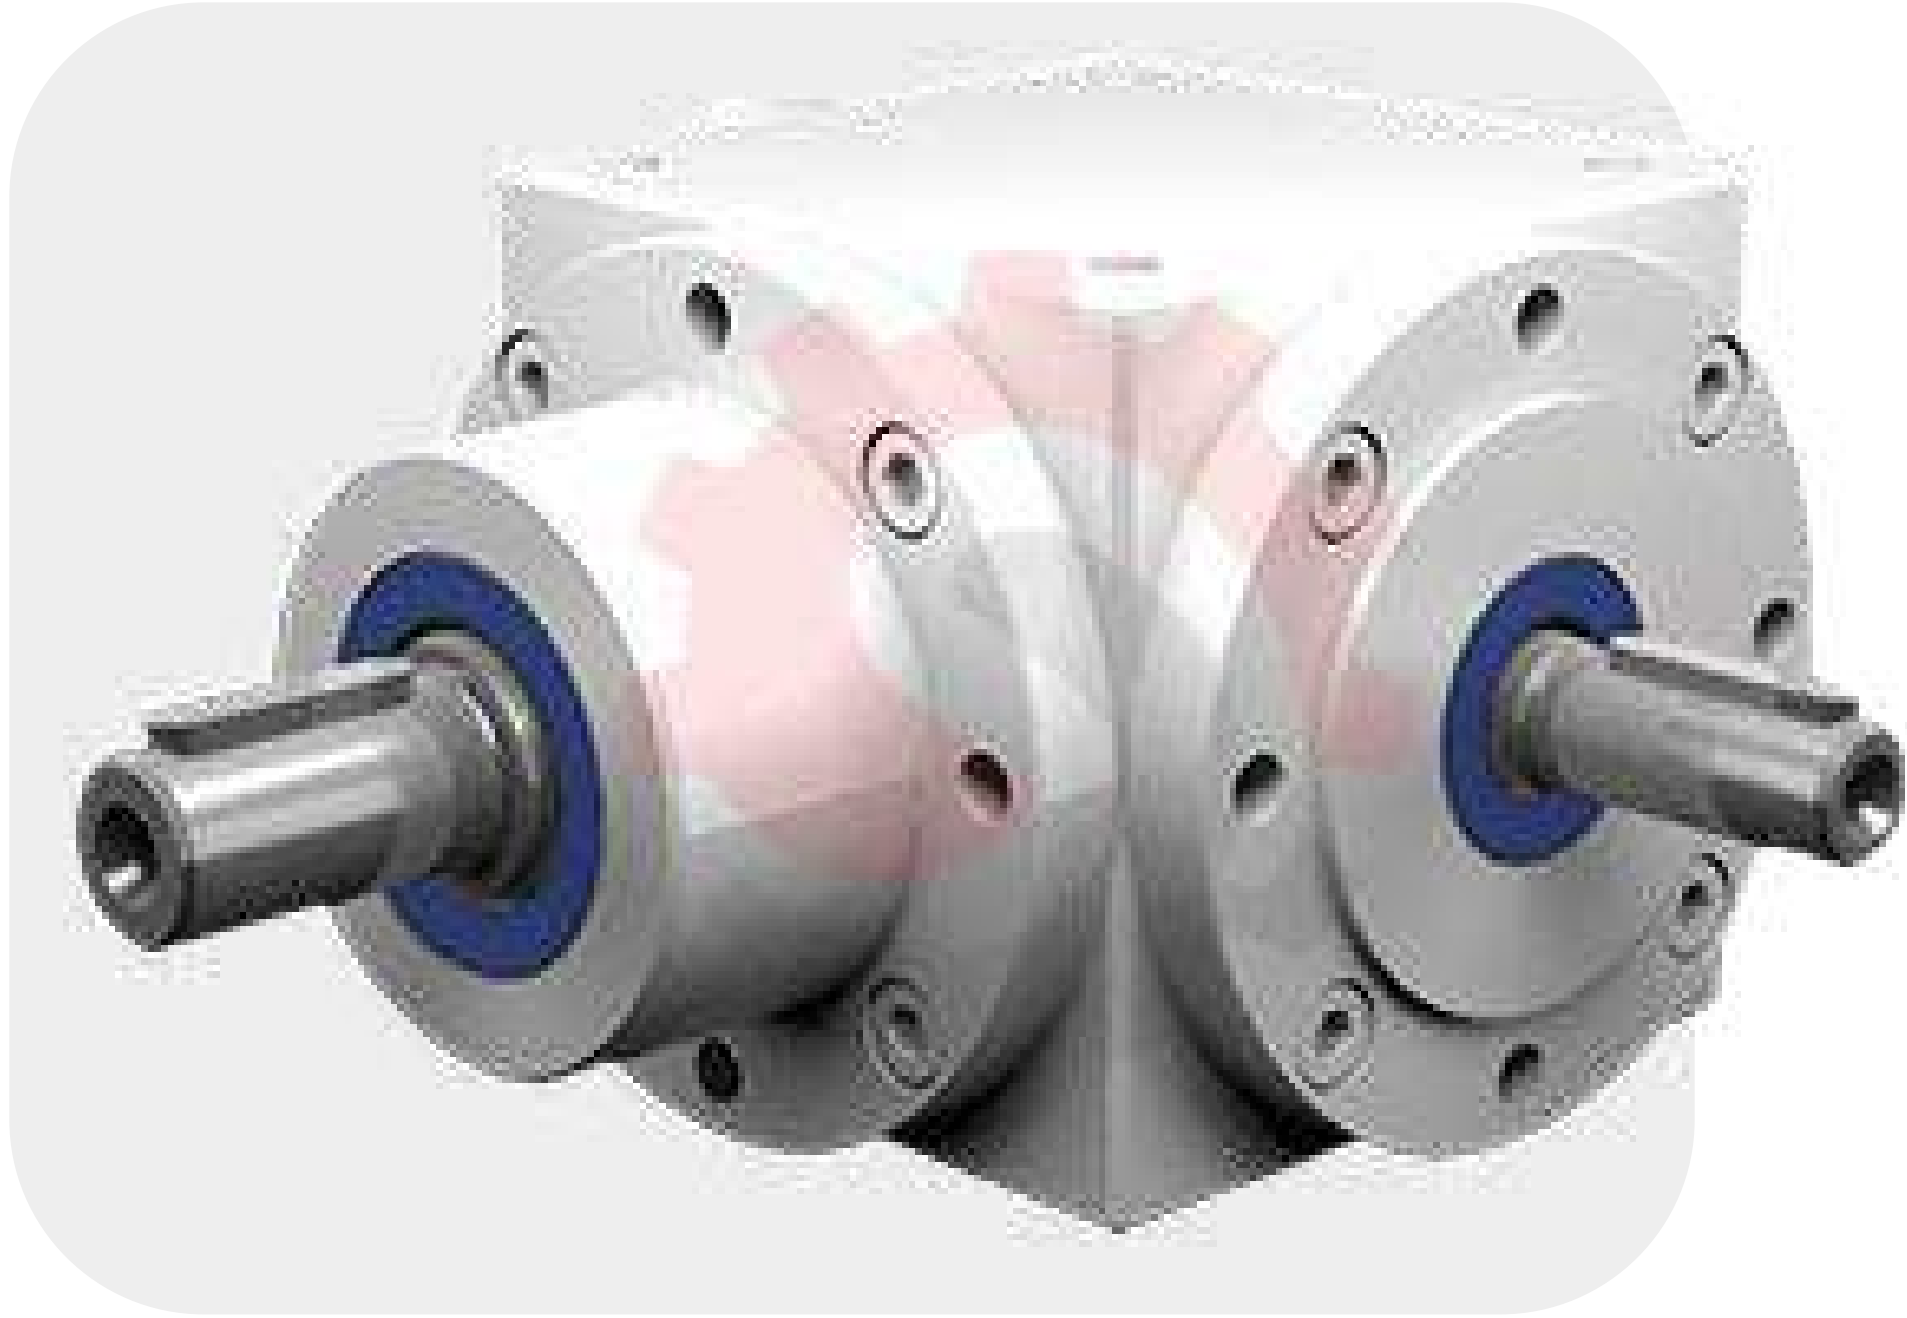

Nylon Gear

At **Shreeji Gears**, we craft high-precision industrial gears built for power, durability, and smooth performance. From heavy-duty torque to silent motion control, our gears are designed to meet the toughest industrial needs.

Gear Boxes

Bevel Gearbox

Designed for intersecting shaft operations, providing efficient right-angle torque transfer. Used in automotive, marine, and industrial drive systems.

- Power tools and automotive systems
- Conveyor belts and elevators

Helical Gearbox

Delivers high efficiency and low noise. Ideal for heavy-duty applications requiring smooth, continuous power transmission in industries like packaging, mining, and material handling.

- Crushers, extruders, conveyors
- Packaging and printing machinery

Worm Gearbox

Compact and powerful with self-locking features. Best suited for conveyors, hoists, and elevators where space-saving and high torque are key.

- Conveyors and hoists
- Rotary tables and presses

Conveyor Gearbox

Tailor-made for conveyor systems, this gearbox ensures consistent speed control, smooth torque transmission, and high shock resistance. Built for continuous operation, it fits:

- Material handling systems
- Food, packaging, and bottling lines

Planetary Gearbox

Compact yet powerful, the Planetary Gearbox delivers maximum torque density with uniform load distribution across gears. It's a go-to choice for precision motion and limited space applications like:

- Robotics and automation
- CNC machinery and electric drives
- Industrial mixers

Sprockets

Double Pitch
Sprocket

Roller Chain
Sprocket

Taper Lock
Sprocket

Steel Split
Sprocket

Fourplex
Sprocket

Idler
Sprocket

Spare (General)
Sprocket

Triplex
Sprocket

Conversion Sprocket
(Conveyor)

At **Shreeji Gears**, we craft High-performance sprockets engineered for precision, strength, and durability. Available in Simplex to Fourplex variants, compatible with all standard roller chains. Ideal for conveyors, automation, and heavy-duty applications.

Couplings

Disc Coupling

Gear Coupling

Grid Coupling

Rubber Coupling

Jaw Coupling

Diaphragm Coupling

Sleeve Coupling

Beam Coupling

Roller Chain Coupling

Shreeji Gears manufactures high-performance industrial solutions engineered for maximum strength, precision, and durability. Our products are designed exclusively for **Bulk orders** and excel in heavy-duty conveyors, automation systems, and high-torque power transmission. Trust Shreeji Gears for robust quality, custom specifications, and dependable performance in demanding environments.

Other Products

Knurling Wheel

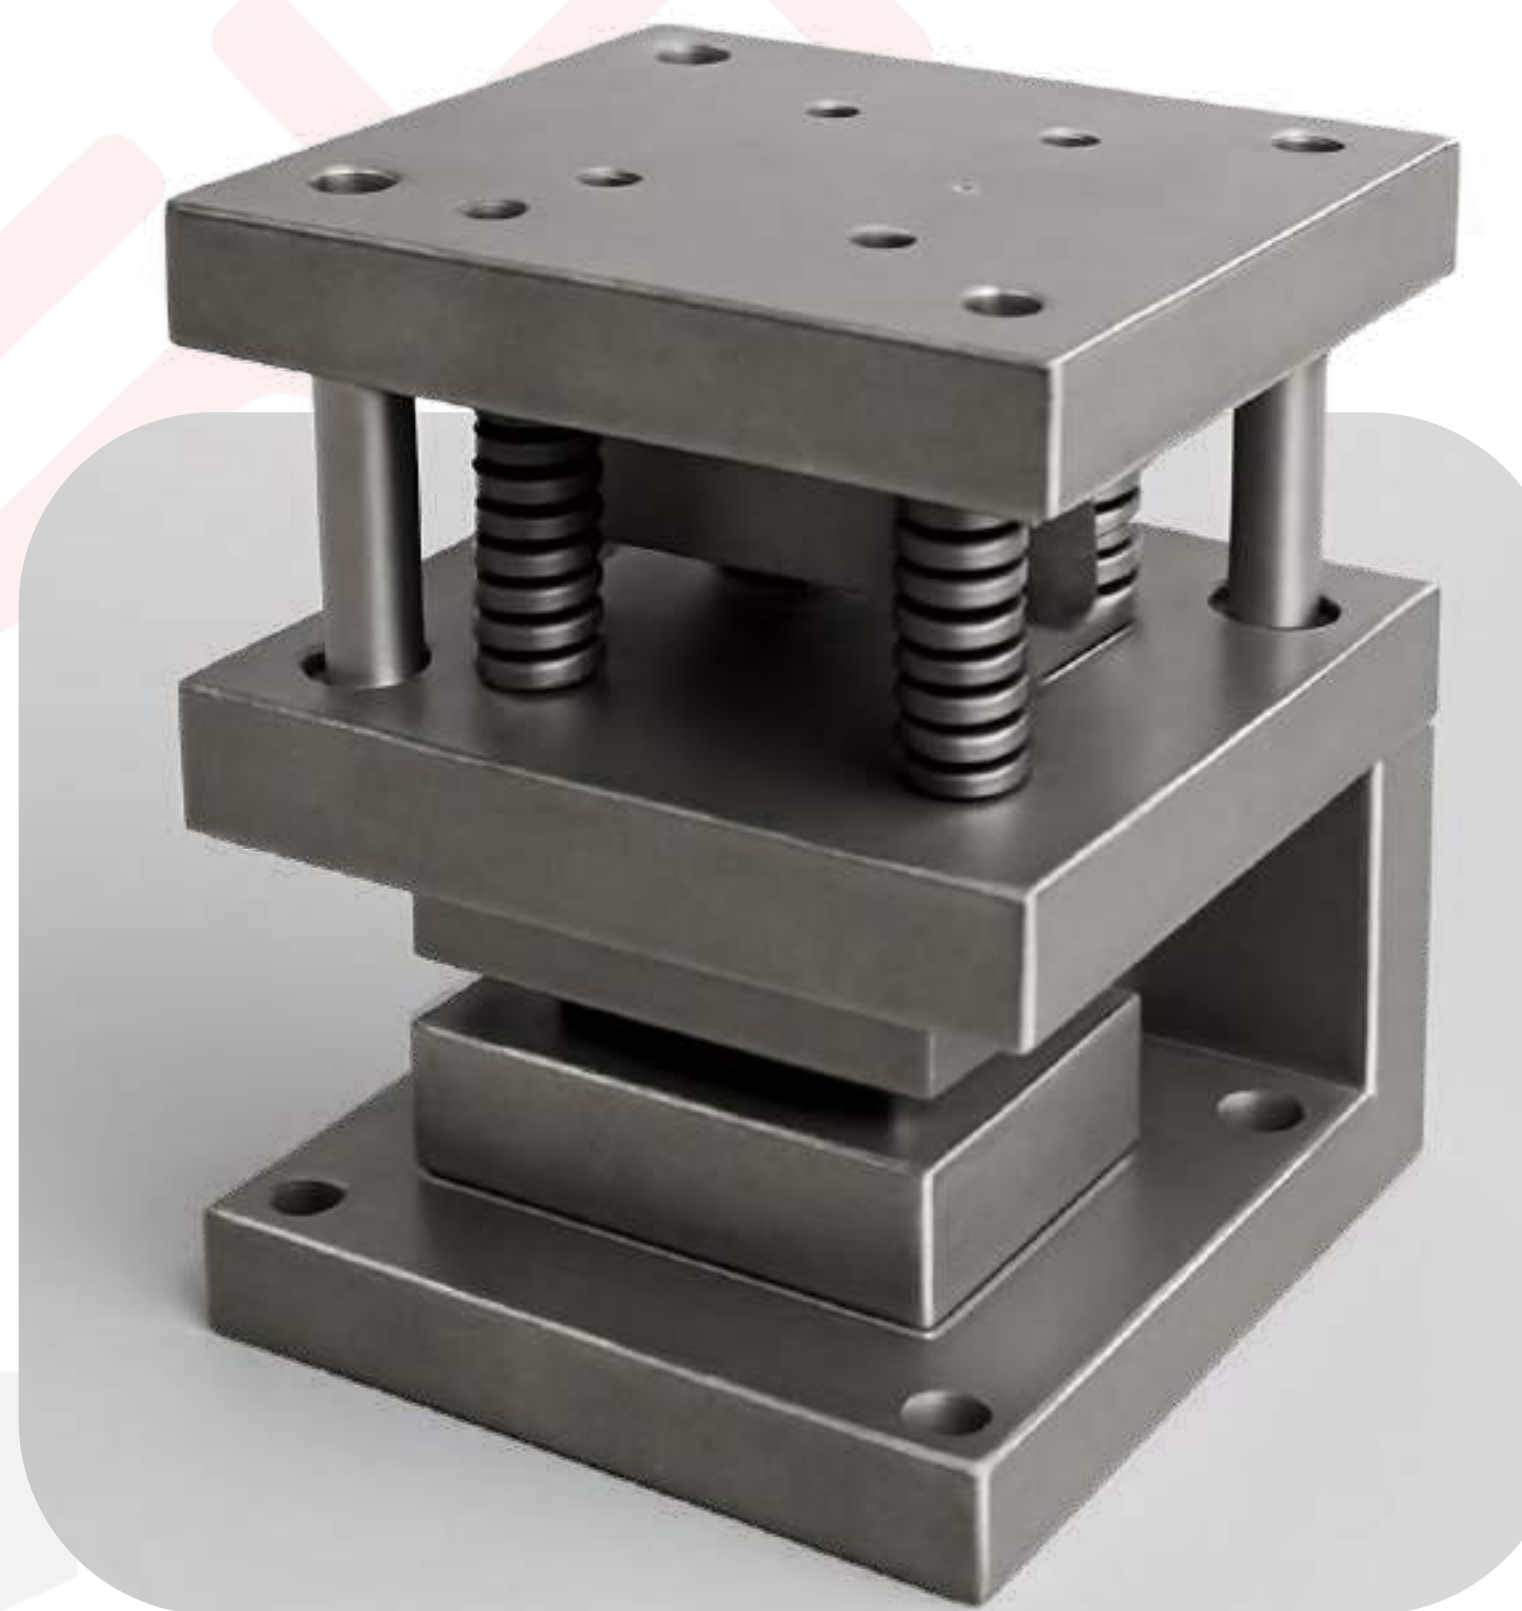

Nylon Pulley

V-Belt Pulley

Lapping Plate

Custom Simple Die

Compound Die

Axle Shaft

Drive Shafts

Spindle Shaft

Shreeji Gears manufactures high-performance, strong, and durable industrial products, designed especially for **bulk orders**. Choose quality, custom-made solutions for top results in heavy-duty conveyors, automation systems, and high-torque power transmission, ensuring reliability and customer satisfaction.

Machinery

VMC Machine

Our VMC (Vertical Machining Center) offers precision and efficiency for complex machining tasks, ensuring consistent high-quality results.

CNC Machine

Our CNC lathe delivers unmatched accuracy and repeatability for turning operations, ideal for both prototype and high-volume production.

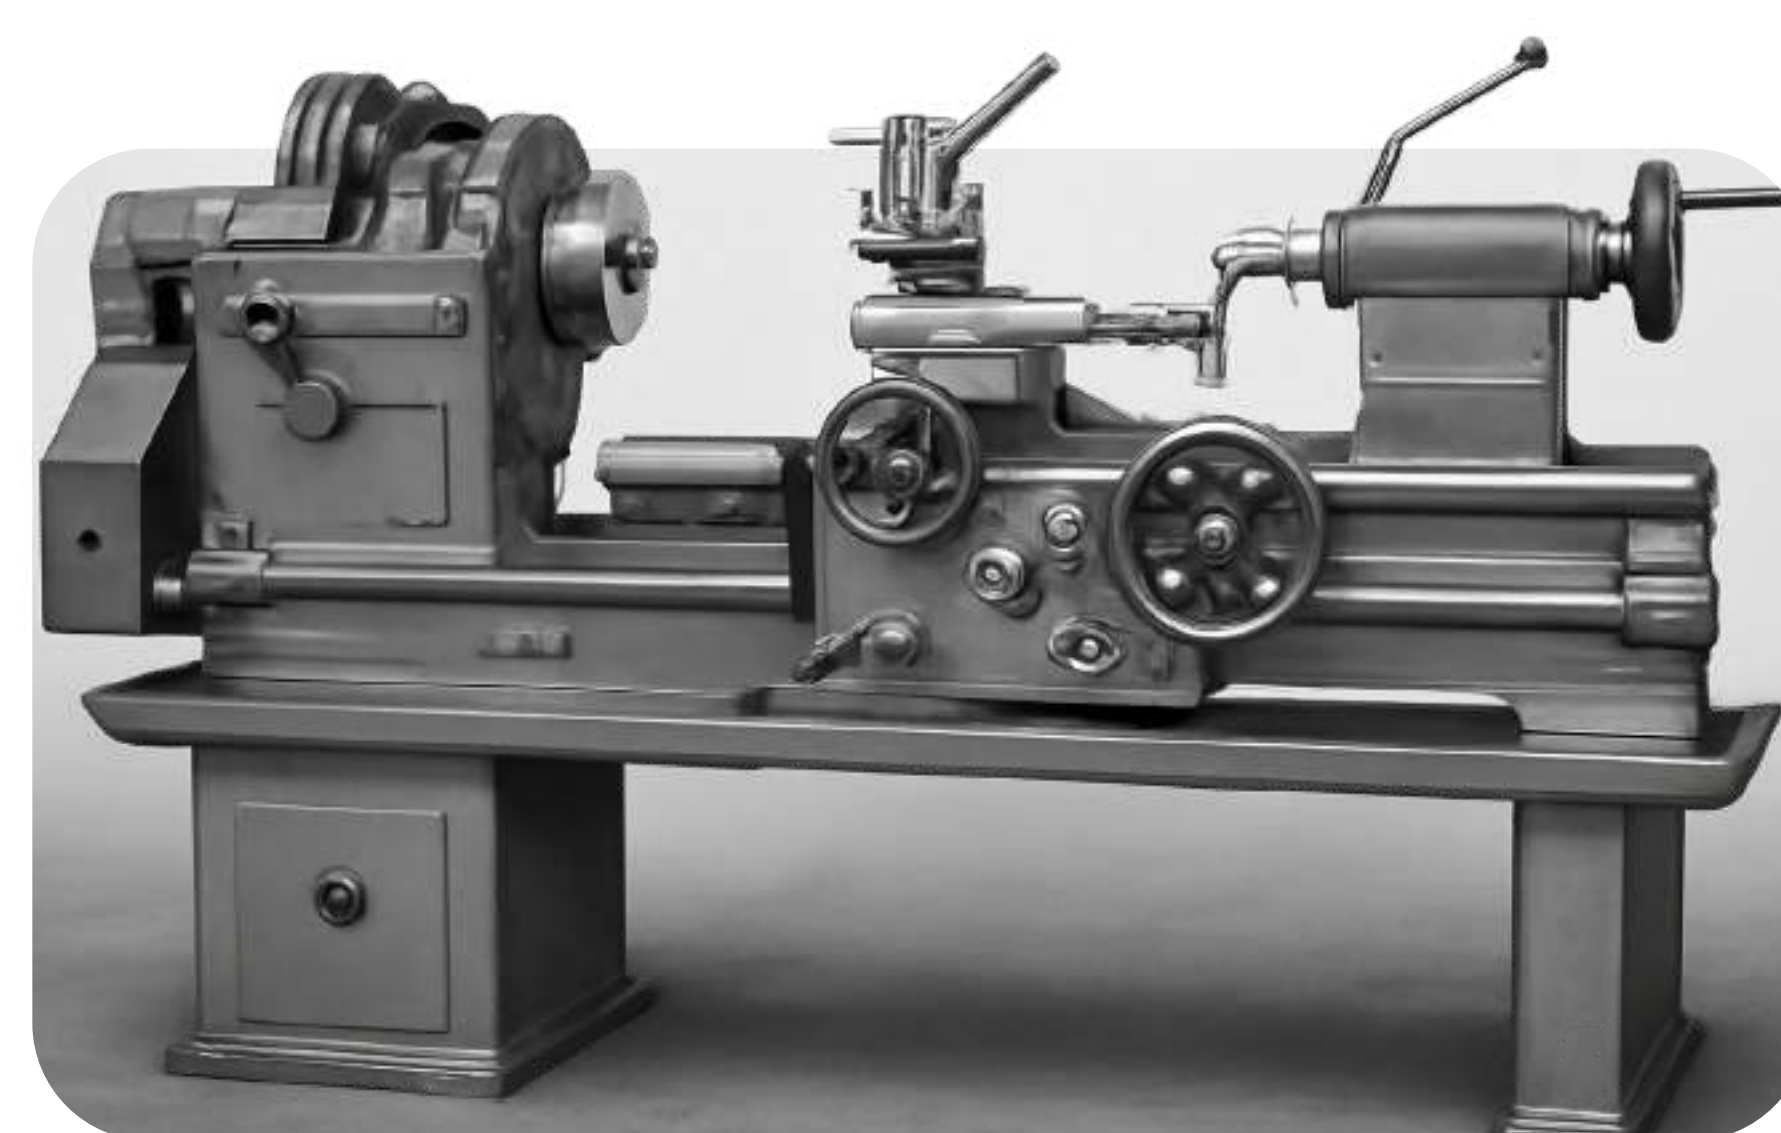

Wier Cut Machine

Our Wire Cut EDM Machine provides precise, high-quality cutting for complex profiles and hard metals. Its advanced controls and robust design maximize productivity in both prototype and manufacturing applications.

Milling Machine

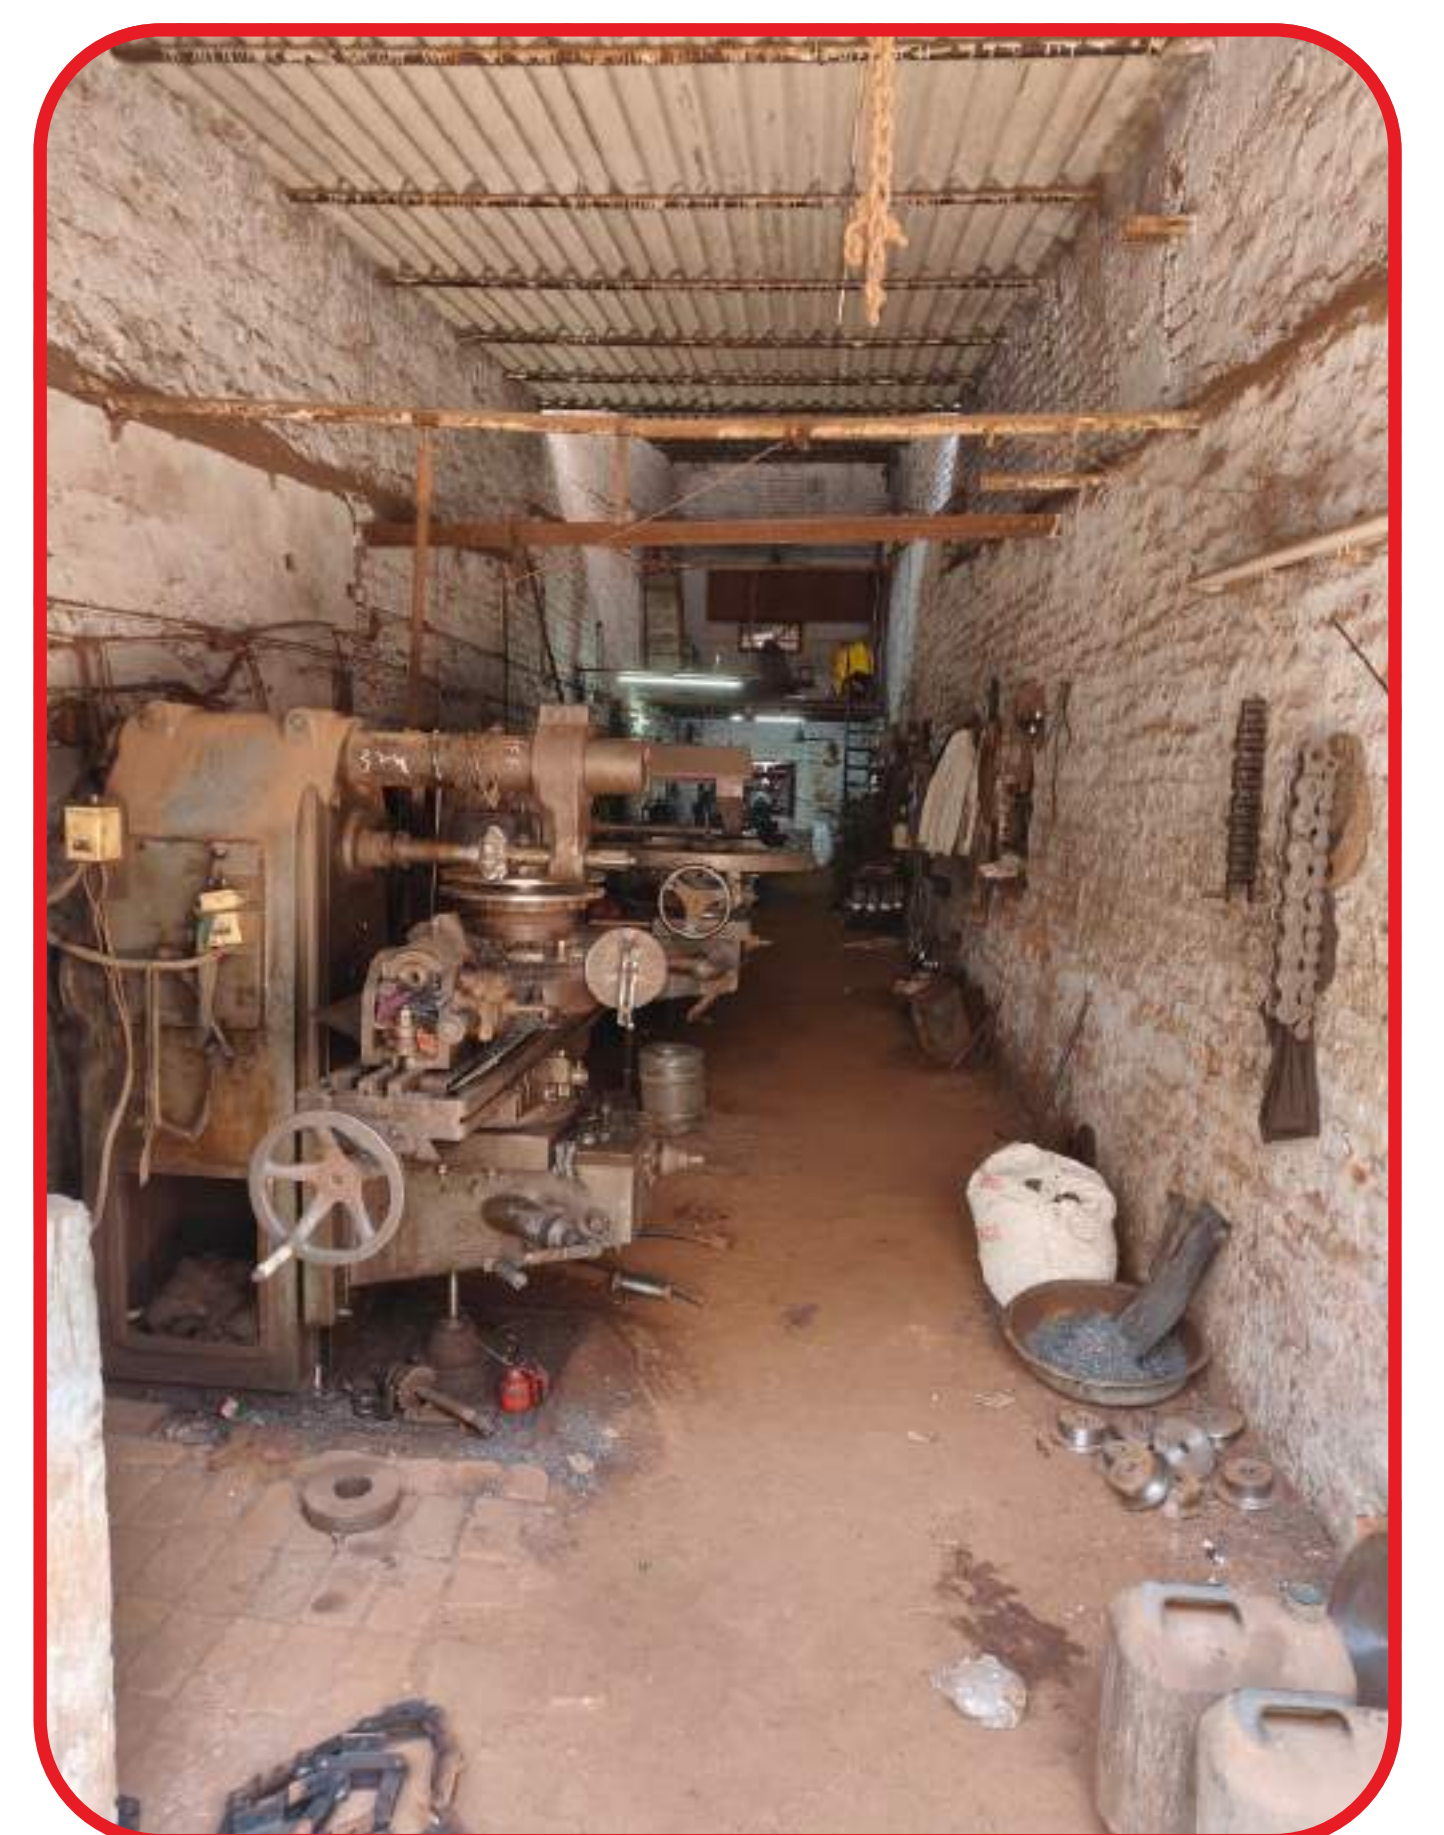

Provides accurate material removal and versatile machining for complex part fabrication

Lathe Machine

Delivers precise turning and shaping for a wide range of industrial components.

Infrastructure

Shreeji Gears combines modern facilities and a skilled workforce to deliver durable, high-performance industrial solutions for heavy-duty conveyors, automation systems, and high-torque power transmission.
